The Banner.

ALL SORTS. Runs were worn for display by Henry I. of England about 1185. The people of this country sent 60,000,000 millions in 1892. Over 20,000,000 hogs are annually slaughtered in this country. The greatest cataract and the highest trees in the world are American. The rivers annually pour into the ocean 6,000 cubic miles of water. A \$200,000 building is to be erected for the New York Teachers' College. The famous "dragon" tree on the island of Tenerife is 5,000 years old. Orange growers of Southern California are to organize for mutual protection. Forest fires in this country destroy every year \$12,000,000 worth of timber. Arkansas proposes to tax all sleeping car, express and telephone companies. The new iron pipe combine in the Southwest will have \$20,000,000 capital. The acreage in strawberries in Louisiana this year is almost double that of 1892. The Dakota river is the longest unobstructed river in the world—over 1,000 miles. Don't lay awake at night. Take Simmons Liver Regulator and secure restful sleep. Physicians headed the list of suicides last year, as they have done for the last 10 years. The color of the Red Sea is due to a minute microscopic seaweed of a reddish color. New York State is nearly twice the size of West Virginia, having only 390 square miles.

THE WOMAN PREACHER.

In Fifty Years from Now She Will be at Home in the Pulpit. There seems to be no objection whatever to women taking control of Sunday-schools, benevolent institutions, church fairs, festivals and all other means of caring for the flocks and filling the churches, but when it comes to women in the pulpit there is trouble at once. This is only another of the relics of barbarism. In old times if the church could get over to women taking control of Sunday-schools, benevolent institutions, church fairs, festivals and all other means of caring for the flocks and filling the churches, but when it comes to women in the pulpit there is trouble at once. This is only another of the relics of barbarism.

CHOLERA RAGING AGAIN.

Fifty Deaths and 150 New Cases Every Week in Podolia, Russia. ST. PETERSBURG, March 30.—It is stated in an official report issued to-day that on an average 150 new cases of cholera and 50 deaths are reported every week in the government of Podolia. Cholera has appeared at Sealsko, a market town of Galicia. Every attempt has been made by the town authorities to check the disease, but despite their efforts it is spreading. Three deaths from cholera have already occurred and a number of new cases were reported to-day.
